The Newest Hybrid Tea Rose, Etoile de France

(Star of France.) (As illustrated on front of cover.)

It is a strong, vigorous grower, with good dark foliage, and has large flowers, which are full and double and of beautiful form, both in the bud as well as in the full-blown flower. They are borne on strong, upright shoots, in the greatest profusion. In color it is distinct from all other Roses in its being a rich velvety crimson with vivid cerise-red center. Price, nice strong young plants, 20 cents each; strong two-year-old stock, 50 cents.

TRIUMPH ROSE COLLECTION

Six Ever-blooming Roses for 50 Cents; Large Two-year-old Plants, \$1.50.

(Illustrated on back of cover.)

CROWN PRINCESS

This Rose is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure waxy snow-white, the center of the flower has a lemon tint, just enough to light up and brighten it, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown.

The Best of Yellow Roses

STAR OF LYON

A pure Tea Rose, very free growing and hardy in character, withstanding ten degrees below zero if protected. The color is a good sulphur-yellow, blooms very large, perfectly double, splendid form and freely produced.

GENERAL McARTHUR

General McArthur is a Hybrid Tea Rose, as fragrant as a Rose can be; has good sized flowers and blooms continuously. The bud, when first opening, is the brightest crimson-scarlet and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through and gives fine stems for cutting.

Price—The Triumph Rose Collection of six ever-blooming Roses, for 50 cents. Large two-year-old plants, \$1.50.

MME. ADEL CHATENAY

A grand bedding Rose, as it is a profuse and continuous bloomer, very double, with slightly recurved petals; elegant buds. Color rosy-carmine, shaded salmon.

LA DETROIT

The new Breitmeyer Rose, which has been so largely exhibited and advertised. Shell pink, shading to soft rose; reverse of outer petals cream colored; fragrance like that of old Bon Silene. In form, it is large, cup-shaped; petals, shell-like. Rich, glossy foliage; a rampant, vigorous grower, producing long shoots.

ELISE HEYMANN

This is, beyond question, one of the best of recent European introductions. We have given it a trial, and find it to be of unusual merit. It blooms with astonishing freedom, bearing its large, globular flowers in immense clusters. The color is light yellow, shaded with nankeen-yellow, center rosy-peach. Very free flowering. Vigorous growth, fine foliage and highly valuable.

THE QUEEN CHRYSANTHEMUM SET The Sweet-Scented Carnation Collection

(As illustrated on third page of cover.)

Price, the full set of six for 50 cents.

(Illustrated on second page of cover.)

Six of the finest sweet scented Carnations.

Price, 50 cents.

GEORGIANA PITCHER

- 1 One of the finest early yellow Chrysanthemums of late introduction. Flowers are of extraordinary size, perfect form, Japanese incurved, and of a clear yellow color. Heavy, short jointed growth, with foliage close to the flower.

WM. FALCONER

- 2 Identical with the former, of which it is a sport, except in color, which is a soft, delicate blush, shading almost to white.

SILVER QUEEN

- 3 This is a magnificent variety with very good quality. For size, finish and purity of color it leaves little to be desired. Color purest white with clear smooth florets. The petals show a little incurve, especially in the early stages of the flower.

BLACK HAWK

- 4 The flowers are of massive size, reflexed, with broad, stiff petals; color deep, rich, velvety crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. They grow close up to the flowers, which gives the plant an elegant appearance.

GOLD MINE

- 5 Another variety of exceptional note. This variety is a rich golden-yellow, outer petals reflexed and center incurving in a whorl. An easy variety to grow, and a prize winner in many of the late shows.

MRS. COOMBS

- 6 An extra fine very early pink variety of the largest size. Color, beautiful rose-pink, resembling Viviani Morel in color and also in style, but the petals are broader. It is a fine dwarf grower. First-class pink Chrysanthemums are scarce, and this variety will prove exceedingly valuable on account of its earliness and large size.

RED SPORT

- 1 One of the showiest varieties of Carnations we have ever grown. Nothing will equal it for large flowers, for quality and quantity. Color a flaming scarlet. Growth strong, hardy, broad foliage, and makes a well formed plant.

NELSON FISHER

- 2 This fine Carnation is one of the latest new pink Carnations. A strong, vigorous grower, making long, stiff, straight stems. The color is an intense cerise-pink bordering on scarlet.

M. A. PATTEN

- 3 The newest striped Carnation, yet it has had a thorough test and proved satisfactory as a commercial sort. Color white with red stripe. Blooms large and spreading, stiff stem and a fine grower.

CARDINAL

- 4 A bright crimson with flowers of an enormous size. This new Carnation has taken several prizes in the latest shows. It is a strong grower indoor as well as out. It is an early producer and increases in quantity as late as July.

The above set of sweet-scented Carnations for 50 cents.

GOLD NUGGET

- 5 Clear, deep yellow, slightly marked with red. Strong grower, free, early and continual bloomer. Medium sized, high-centered flower, does not burst. Stem long and stiff, and bloom a first-class keeper. The best yellow we have ever grown.

LADY BOUNTIFUL

- 6 A fine Carnation in size and form. We do not hesitate to recommend this variety as the best white yet introduced. The flowers are very large, borne on a stiff strong stem. Color a pure glistening white. One of the most fragrant Carnations we have.

FLORAL GEMS FOR SPRING OF 1907

IMPORTANT INFORMATION AND DIRECTIONS FOR CORRESPONDENTS AND CUSTOMERS

We believe in this catalog, our new book for spring of 1907, we offer one of the most complete stocks of plants, seeds, fruits and bulbs that can be furnished direct from the grower to the planter. Years of experience in packing plants have resulted in methods which assure their safe arrival, and during the years of our business career, our products have found their way into every state and territory and into many foreign countries. We promise you as fine a stock as can be grown; a large assortment and good service, and we believe, therefore, that this catalog, which we hope will be found pleasing, comprehensive and helpful, is entitled to the careful consideration of all buyers and to those who are not yet on our books as customers. With assurances that all orders and communications shall have our most careful, conscientious and prompt attention, we solicit a careful examination of the following pages.

ORDER EARLY

It will greatly facilitate shipments if orders are sent in early. We aim to send off all orders the same or next day after receipt, but during the busy season it is nearly impossible—hence the advisability of ordering early.

GUARANTEE

We guarantee all Shrubs, Plants, Bulbs and Seeds that we send out to be first-class, true to name, and to reach purchasers in good condition when forwarded by mail or express. After goods are delivered to purchaser our responsibility ends. Most failures with Plants, Bulbs and Seeds are due to soil conditions, unfavorable weather and other causes which are entirely beyond our control, rendering it impossible to guarantee success, and although we take all possible care to send only such goods as will under proper conditions, give satisfactory results, we do not guarantee stock to grow, the crop, or guarantee results in any way, and we cannot entertain complaints that are not made immediately on receipt of goods.

PLANTS BY EXPRESS

We have all of the principal express companies here—Adams, American, Pacific, United States and Wells Fargo—these connecting with all other express companies, and we always recommend having plants sent by express

SEPARATE SHIPMENTS AT ONE COST

Our Plant, Seed and Nursery Departments being all separate we are sometimes compelled to make separate shipments of your order. If in doing this, however, any extra transportation charges are made (that is, any charges over and above that which you would have to pay on one shipment of all items ordered), we always stand this extra expense.

SPECIAL EXPRESS RATE FOR PLANTS

By special arrangements with all the express companies all plants are carried at a reduction of 20 per cent. from the regular merchandise rate. As this is the largest shipping point for plants in the United States, and as all offices are sending out plants every day of the year and the charges are all regulated at the offices here you will always receive advantage of the special plant rate.

PREMIUMS (20% additional) ALLOWED

On \$1.00 worth of goods bought at single rates, select to the value of . . . \$.20 extra

2.00	These premiums cannot be al-	.40	"
3.00	lowed on Special Offers, Col-	.60	"
4.00	lections or goods bought at	.80	"
5.00	dozen rates or seeds in bulk	1.00	"

The above per cent. additional is allowed on mail and express orders alike, but we always add extra plants over and above this per cent. when shipping by express to help offset the transportation charges.

HOW TO REMIT

—POSTOFFICE ORDERS. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost, a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

PLANTS BY MAIL

When plants are ordered by mail we prepay postage, delivering the plants free of all expense to any Postoffice in the United States.

CASH WITH ORDER

Please send money with the order sufficient to cover the whole bill, to facilitate the execution of your orders. During the busy season, to make out bills for customers, charge and in a few days receive the money, make the proper credit and send receipt, requires more work than we can readily perform. We decline sending goods "Collect on delivery," unless remittances be made on account to guarantee acceptance.

LOOSE MONEY

Enclosed in the letter is at the risk of the sender.

POSTAGE STAMPS

These can be sent for fractional parts of one dollar, or where postoffice order cannot be had, provided a two-cent stamp extra is sent with every remittance. None but stamps in perfect order accepted.

ERRORS AND COMPLAINTS

We exercise the utmost care in filling orders, striving to do a little more than we offer, yet in the press of business errors sometimes occur, and when orders are received they are in some way damaged, or not satisfactory, in which event we wish to be promptly notified of the fact and will make such an adjustment of your claim that will be satisfactory. When you write us simply give the nature of your complaint, giving a list of the plants damaged and price paid for them and state whether you wish these items replaced or the amount refunded. It is nearly impossible to find time in the busy season to adjust your complaints promptly unless you give us all the information required to do so in your first letter.

IF YOU WISH ORDERS HELD

Please say so, otherwise we will send at once or acknowledge their receipt. We work nights when necessary, and always try to ship promptly. Always mention your order number when writing us. (See "Lost Orders" below.)

LOST ORDERS

Letters are sometimes lost in the mails. If you do not hear from us within a reasonable time, please send us a duplicate of your order stating when and in what form payment was sent, and sign the same name and address as in the first order, so that it may have immediate attention.

CORRESPONDENCE

We invite correspondence on any business topic and are always glad to give you any information or suggestions on any subject within our knowledge. When writing about plants on an order, write on the order sheet under the heading "Remarks," and when making an inquiry concerning plants not ordered use a separate sheet, as our order and correspondence departments are conducted separately. When writing about an order be sure and furnish complete information so that it will not be necessary for us to look up records, as this always causes delays.

We cannot accept Canada or Mexican silver or paper money.

Our Quartet of New Beauties

KILLARNEY

A charming Rose of robust growth and free branching habit; blooms large, buds long and pointed; petals very large and of great substance; flesh shaded white, suffused pale pink; a lovely and distinct Rose of great merit. Price, 25 cents each; strong two-year-old plants, 50 cents.

The Yellow Cochet, MME. MATRAT

A pure Tea Rose, very free growing and hardy in character, withstanding ten degrees below zero if protected. The color is a good sulphur-yellow, blooms very large, perfectly double, splendid form and freely produced. It has every quality necessary to make the ideal yellow bedder, ranking with the White and Pink Cochets in value as a summer Rose. Price, 15 cents each; large two-year-old plants, 40 cents.

THE RICHMOND

This Rose is the newest and best red Rose yet introduced. It is as free a bloomer as Bride or Bridesmaid; with four long stems. Its color is of a gorgeous scarlet-crimson. Price, 20 cents each; large two-year-old plants, 40 cents.

MINNIE WANAMAKER

A fine garden variety, of even shade of salmon-rose, round and full, the form of a good H. P. A very free grower and free bloomer. It flowers as continuously and as freely as a China Rose, and is especially fine in autumn. A splendid addition to our standard bedders. Price, 15 cents each; large two-year-old plants, 35 cents.

THE QUEEN OF ROSES,

AMERICAN BEAUTY

This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. Why is this? There must be a reason. It is because of its large size, rich color and delicious fragrance. It is a hardy Rose, of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask, or Moss Rose. It is the sweetest of all Roses. In color it is a deep, brilliant red, shading to a rich carmine-crimson. It is entirely hardy, and is a valuable Rose for the garden or indoor culture, flowering freely during the winter. American Beauty is like Marechal Niel—difficult to start from small plants; therefore, we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason it is hard to propagate. It can only be rooted with success during winter. Price, one-year-old plants, 20 cents; fine, bushy plants 2 years old, 35 cents each; three for \$1.00.

Helen Gould.

HELEN GOULD

(Hybrid Tea.) We believe this one of the best hardy ever-blooming Roses ever introduced. The color is unique, a very soft intense carmine crimson with deeper shades in the depth of the petals; in color much like American Beauty. The profusion of its bloom is truly marvelous, every shoot producing a flower. A grand addition to our list of red Roses and equally valuable for winter forcing or summer bedding. Price, 15 cents each; two-year-old plants, 30 cents each.

The Superb Yellow Rose, MARECHAL NIEL

The most popular of all. A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. Price, 15 cents; two-year-old, 35 cents. Fine three-year-old plants, with long branches, 50 cents each.

LADY MARY CORRY

This new Rose is exceptionally fine for outdoor bedding. Growth vigorous and of erect, branching habit. A beautiful Rose of the most exquisite color, which is a deep, golden-yellow. Blooms of good size, freely produced and perfectly formed. A very fine variety to add to the much wanted yellow varieties. Price, 15 cents; two-year-old plants, 40 cents.

PERNET'S TRIUMPH

The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Price, 15 cents each; large two-year-old plants, 35 cents.

The New Beautiful Hybrid Tea Rose,**PRESIDENT CARNOT**

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom. Price, fine young strong plants, 15 cents each; fine two-year-old plants, 40 cents each.

Souv. De Pierre Notting.

SOUV. DE PIERRE NOTTING (Tea)

This variety is a seedling of M. Niel and Maman Cochet, with beautiful closely set foliage and a strong, sturdy habit of growth. Color orange-yellow, bordered in carmine-rose. Promises to prove very popular. Has received not less than six gold medals and prizes. Price, 15 cents each; large two-year-old plants, 30 cents each.

IVORY, The White Sport of Golden Gate

Ivory is a "sport" from the fine old variety Golden Gate, which today is probably the freest flowering Rose of its type in cultivation, but which unfortunately lacks in decided color. Ivory embodies all the good points of its parent—size, freedom of bloom, strong, vigorous, healthy growth, with a pure white color which makes it an invaluable acquisition to the list of forcing Roses. Price, 15 cents each; large two-year-old plants, 30 cents.

LADY BATTERSEA

This new Rose is considered by many Rose fanciers to be the finest variety of 1902 introduction. It belongs to the new British Roses and has received many honors at the English exhibitions. It has long, oval buds, sharply pointed, very striking in form; the color is bright cherry-crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower, not very full, but an unusually showy variety. The only Rose approaching Niphotos in form. Lady Battersea belongs to the Hybrid Tea class, and if protected with evergreen boughs or straw, it can be left in the ground all winter without danger. Do not omit, this valuable Rose from your list. Price, 15 cents each; two-year-old plants, 35 cents.

NEW ROSE BESSIE BROWN

This new Rose is considered one of the finest of the Roses of late introduction, and is well worthy the place it occupies among Roses. It is the Hybrid Tea class and will stand frost if slightly protected. Blooms are of enormous size, of heavy substance and are perfect in shape, lasting splendidly when cut. The color is snow white, faintly flushed and tinged with pink. A fine, strong, free grower, producing long stems, well clothed in foliage quite up to the flower. Price, 15 cents; two-year-old, 40 cents.

Our Great Soupert Collection of Roses

FIVE SOUVERTS FOR 50 CENTS

The Famous Hardy Ever-Bloomer,
Clothilde Soupert.

CLOTHILDE SOUVERT

This Rose originated with Messrs. Soupert & Notting, of Luxemburg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10c each; large plants, 30c.

The New Rose, CLIMBING SOUVERT

This is a climbing form of the grand variety Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for spring flowering, much superior to the parent variety. Color ivory-white, deepening to a rosy-blush in the center. Price, 15 cents each; two-year-old, 35 cents.

YELLOW SOUVERT, or MOSELLA

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome-yellow in the center, getting creamy-white on the edges of the petals; it will make a great bedder and is perfectly hardy. Price, 15 cents each; two-year-old plants, 35 cents each.

THE BEAUTIFUL NEW PINK SOUVERT

This bright new Rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the C. Soupert. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert. Price, 15 cents each; two-year-old plants, 35 cents each.

WHITE SOUVERT, or LEONIE OSTERIETH

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of a good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. Price, 15 cents each; two-year-old, 35 cents.

THE FOUR HARDY EVER-BLOOMING HERMOSA ROSES

PINK HERMOSA, The Old Favorite

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large two-year-old plants, 30 cents each.

WHITE HERMOSA, Marie Lambert

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 15 cents each; large two-year-old plants, 30 cents each.

YELLOW HERMOSA, Coquette de Lyon

This is a most charming yellow Tea Rose, a grand grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. This is the best blooming pure yellow Rose in our catalogue. We sold of this Rose the past spring 35,000 plants. It is a Rose that will please all. Price, 15 cents each; large two-year-old plants, 30 cents each.

CRIMSON HERMOSA, Queen's Scarlet

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 15 cents each; large two-year-old plants, 30 cents each.

SPECIAL OFFER—THE FOUR HERMOSA ROSES FOR 40 CENTS OR THE FOUR IN LARGE TWO-YEAR SIZE FOR \$1.00.

THE THREE COCHETS

The Yellow Cochet, MME. MATRAT

A pure Tea Rose, very free growing and hardy in character, withstanding ten degrees below zero if protected. The color is a good sulphur-yellow, blooms very large, perfectly double, splendid form and freely produced. It has every quality necessary to make the ideal yellow bedder, ranking with the White and Pink Cochets in value as a summer Rose. Price, 15 cents each; large two-year-old plants, 40 cents.

The Beautiful White Forcing Rose, WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet. Price, 15 cents each; large two-year-old plants, 35 cents.

Forcing Rose, MAMAN COCHET

One of the best new Roses. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose-pink. Price, 15 cents each; large two-year-old plants, 40 cents.

The Beautiful Yellow Tea Rose, PEARL OF THE GARDEN

Perle des Jardins—The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but it is a perfect and popular Rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equaled in beauty by the open Rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark, every branch being topped with the dark reddish-maroon of the young shoots, and bearing its buds high above the leaves. Price, 15 cents each; large plants, 35 cents each.

MME. JULES GROLEZ

One of our finest and best Roses. Its growth is very strong, with a rich leathery foliage. The flowers are of a clear deep pink with a tint of lavender. Price, 15 cents each; strong two-year-old plants, 30 cents.

Kaiserin, the best hardy ever-blooming White Rose ever introduced.

KAISERIN AUGUSTA VICTORIA

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. This Rose combines both these good qualities. Color a pure snowy white. Price, 15 cents; two-year-old, 35 cents.

SOUVENIR DE LA MALMAISON

This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Price, 10 cents each; large, two-year-old plants, 30 cents.

BURBANK

Another fine Rose for open-ground planting; an easy variety to grow, with pretty foliage, long, stiff stems, and very hardy. Flower a clear pink, deep with large petals. A fine variety for any purpose. Price, 15 cents each; large, two-year-old plants, 25 cents.

The Grandest of All, THE METEOR

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose. A free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large, two-year-old plants, 25 cents each.

SUNRISE, The New Forcing Rose

Sunrise has taken first honors wherever shown, and this year will be grown quite extensively for the cut-flower market. In close bud form it shows a deep coppery-pink, but as the flower opens the inner side of the petals shade from a clear yellow to a deep copper, making a very pretty color effect. The fragrance is delightful, much the same as the old Rose *Bon Silene*. The young foliage comes a copper-bronze, and as it grows older changes to a deep green. This Rose has a good future, having been thoroughly tested, and all the qualities that make a good Rose are in the "Sunrise." Price, 15 cents each; two-year-old, 35 cents.

A Page of Ever-Blooming Climbing Roses

New Climbing Rose, Mrs. Robert Peary.

MRS. ROBERT PEARY

Or Climbing Kaiserin Augusta Victoria

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. Price, 15 cents each; two-year-old, 30 cents.

SOMBREUIL

A grand variety in every respect. Combines vigorous growth with hardiness and is very floriferous. Flowers of large size, pure white tinged with a delicate pink. Everybody should plant this beautiful Rose. Price, nice young plants, 10 cents each; strong two-year-old plants, 30 cents.

CLIMBING HERMOSA

This new climber is an offspring of that grand old variety Hermosa. It is a very strong grower, showing the climbing habits very distinctly. One remarkable feature not found in all the Climbing Teas is, it flowers very abundantly. Color of flowers a clear delicate pink. Price, nice young plants, 20 cents; strong two-year-old plants, 50 cents.

CLIMBING BRIDESMAID

Bridesmaid, the parent of this new climber, is the standard pink cut flower Rose of America. It represents the highest degree of beauty yet attained in Roses of its class. When we first offered this new variety as a sport from Bridesmaid its popularity was assured. It grows rapidly and strongly, and blooms as freely as does its parent. The flowers are simply beautiful, clear pink. This is one of the most valuable additions to the climbing Tea Roses made in recent years. Price, 15 cents; two-year-old, 30 cents.

CLIMBING MARIE GUILLOT

A Glorious New Rose

If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the Queen of White Roses, and while there are many white varieties of unquestionable excellence, there are none more reliable for outdoor cultivation than Marie Guillot. It is one of the most rapid-growing and vigorous Climbing Roses we have ever seen. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. Price, 15 cents each; two-year-old, 30 cents.

CLIMBING METEOR

All who know "General Jack" will call to mind its beautiful, high-colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer, and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for summer blooming, as it will make

a strong growth and be literally loaded with its deep, rich, red flowers all the time. Its flowers are much larger than Meteor and are richer in color. Price, 15 cents each; two-year-old plants, 30 cents.

CLIMBING WOOTTON

Though not one of the newest Roses, yet the trade is just finding out the wonderfully good qualities of this Rose. It is superior to Souv. of Wootton, its parent, in that the stems are much longer and the growth is more rapid. The color is identical with its parent, a deep velvety-crimson. It will live through the coldest winters with but slight protection. Price, 15 cents each; two-year-old plants, 30 cents.

GAINSBOROUGH

The best of all Climbing Roses. For beauty and size we place this among the first of the Hybrid Teas. It has the foliage of the old Rose Folkestone, its color being a delicate tinted pink, almost white. When in bloom it resembles a large open peony. You should add this valuable Rose to your collection. Price, nice young plants, 15 cents each; large two-year-old plants, 30 cents.

Bridesmaid.

BRIDESMAID

Here we have a new Rose, a sport from that old stand-by Catherine Mermet. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time, under every condition of weather and surroundings. Price, 10 cents each; large two-year-old plants, 30 cents each.

MME. ABEL CHATENAY

A grand bedding Rose, as it is a profuse and continuous bloomer very double, with slightly recurved petals; elegant buds. Color rosy-carmine, shaded salmon. Price, 15 cents each; large two-year-old plants, 30 cents.

MADAME SCHWALLER

Blooms in large clusters. Large globular flowers; color transparent salmon-rose; very delicate and tender; petals finely edged with violet-carmine; highly perfumed. With only a little protection they will stand the cold winter. Price, 10 cents each; strong two-year-old plants, 30 cents each.

DUCHESS DE BRABANT

A bright China Rose, with coppery-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other. Price, 10 cents each; large two-year-old plants, 30 cents.

BON SILENE

Still a prime favorite, on account of its delightful fragrance and strong growing qualities; color, deep rose, shaded carmine. Valuable for summer or winter flowers. Price, 10 cents each; two-year-old plants, 25 cents.

The Fine Pink Tea Rose,

CATHERINE MERMET

One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cents each; two-year-old plants, 25 cents each.

The Great Southern Rose

MADAME LAMBARD

This variety is planted in the South as much as any Rose on the market. A first-class Rose for garden planting or pot culture; habit of growth is vigorous, and blooming quality very free. The color is a beautiful shade of rosy-bronze, changing to salmon and fawn, shaded with carmine. Very sweet-scented. An exceptionally fine variety. Price, 10 cents each; two-year-old plants, 25 cents each.

MRS. DE GRAW

Everybody wants a hardy, ever-blooming Rose. From early summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy-pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses. Price, 15 cents each; two-year-old plants, 30 cents.

PRINCESS VERA

An excellent Rose that has become a great favorite. The flower is of large size, of exquisite shape, with heavy, thick, shell-like petals; buds long and pointed, similar to Niphotos, but very much larger and borne on stiff, erect stems; color delicate, rosy flesh, shaded a trifle deeper at the center. An extra good garden Rose. Price, 10 cents each; strong two-year-old plants, 30 cents each.

MADAME DE WATEVILLE

The color is a remarkable shade of creamy-yellow, richly covered with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Price, 10 cents each; large, two-year-old plants, 30 cents each.

The Charming Tulip Rose, MME. ELI LAMBERT

This is a superb, rich, new Rose, carrying such fine combinations of color that it is sure to please. It belongs to the Tulip class, salmon-pink, with the center of coppery-rose, elegantly edged darker. The petals are so thick and velvety like as to hardly resemble a Rose. Price, 10 cents each; large two-year-old plants, 25 cents each.

HENRY M. STANLEY

A lovely Tea Rose. This grand new ever-blooming Rose was raised from Madame Lambert and Countess Riza du Parc, and named in honor of the great African explorer, and recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber rose, delicately tinged with apricot-yellow towards the center. Reverse of petals is a clear buff rose. The flowers are of good substance, extra large, finely formed, and very full and fragrant. Price, 10 cents each; large two-year-old plants, 25 cents.

Large Two-Year-Old Roses seem to be growing more popular every year, and we recommend these to those who want an immediate effect. : : : : : : : : :

A PAGE OF OUR WHITE BEAUTIES

The Beautiful White Forcing Rose

WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet. Price, 15 cents each; large two-year-old plants, 35 cents.

White Tea Rose, THE BRIDE

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

MARIE GUILLOT

This beautiful Tea Rose continues in popular favor and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10 cents each; large, two-year-old plants, 25 cents each.

THE QUEEN

It is pure snow white, makes good, finely formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses. Price, 10 cents each; large two-year-old plants, 30 cents.

SOMBRIEUL

A grand variety in every respect, combines vigorous growth with hardiness, and is very floriferous. Flowers of large size, pure white, tinged delicate pink. Everybody should plant this beautiful Rose. Price, 10 cents each; large two-year-old plants, 30 cents each.

WHITE SOUPERT, or LEONIE OSTERRIETH

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthus. Price, 15 cents each; two-year-old, 30 cents.

SNOW FLAKE

It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 15 cents each; large two-year-old, 30 cents.

CORNELIA COOK

The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. Cornelia Cook has the largest bud of any of the white Roses. It is a massive and magnificent Rose. Price, 10 cents each; large, two-year-old plants, 30 cents each.

The Famous Hardy Ever-Bloomer

CLOTHILDE SOUPERT

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10 cents each; large plants, 30 cents.

KAISERIN AUGUSTA VICTORIA

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. This Rose combines both these good qualities. Color a pure snowy white. Price, 15 cents; two-year-old, 35 cents.

The Polyantha, or Fairy Roses

Price, 8 cents each; large two-year-old plants, 20 cents each.

Bloom in clusters, making a well grown plant look like one large bouquet. Almost hardy, requiring but slight protection even in most severe winters.

MIGNONETTE

A lovely Fairy Rose; full, regular flowers, perfectly double and delicately perfumed. Its color is a clear, delicate rose, with a frequent and peculiar intermingling of white.

PETITE LEONIE

The most delicate in coloring of any Rose. Pure white, faintly touched with pink. A charming Rose.

PERLE D'OR

Beautiful light yellowish-salmon, deeper in the center, with small white edges. Blooms in clusters, medium size, of fine form and texture.

PARQUETTE

The flowers are pure white about one inch in diameter, flowering in clusters. Very full, prettily formed, resembling blossoms of the double white Primrose in profusion of bloom.

GEORGE PERNET

A strong growing dwarf variety, forming a perfect round bush. The color is bright rose with touches of yellow, and passes to peachblow with silvery-white shadings.

PRIMULA POLYANTHA

New. A very showy, low-growing little bush, completely covered with cup-shaped flowers, semi-double, which are China rose at the edges and snow white in the center. This arrangement of the color reminds one of the Chinese Primrose. A pretty bedding plant.

Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each; large, two-year-old plants, 35 cents.

New Tea Rose, CHARLES LEGRADY

Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. Price, 10 cents each; large, two-year-old plants, 25 cents each.

PAPA GONTIER

A grand red Tea, of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form, and you would never suspect it that the Rose is only semi-double. Extremely free, both in growth and bloom. Price, 10 cents each; large, two-year-old plants, 25 cents each.

JOSEPH METRAL

Extraordinary value. It is a strong, vigorous grower, making a handsome, graceful bush, with large, thick, deep green leaves. The flowers are large, beautifully cup-shaped. CLIMBING WOOTTON

Though not one of the newest Roses, yet the trade is just finding out the wonderfully good qualities of this Rose. It is superior to Souv. de Wootton, its parent, in that the stems are much longer and the growth is more rapid. The color is identical with its parent, a deep velvety-crimson. It will live through the coldest winters with but slight protection. A Rose that every florist should add to his collection. Price, 15 cents each; two-year-old plants, 30 cents.

New Bedding Rose, GRUSS AN TEPLITZ

It is a Rose for everybody, succeeding under the most ordinary conditions, and will take rank with such old-time favorites as Hermosa, Souv. de la Malmaison, Clothilde Soupert, etc. in color it is rich scarlet, shading to velvety crimson; of larger size than Hermosa; very fragrant; a free, strong grower; and the most profuse bloomer known to us, the mass of color produced being truly phenomenal, and the foliage is extremely beautiful, all the younger growth being of a bronzy-plum color. Price, 15 cents each; two-year-old plants, 30 cents.

JAMES SPRUNT

An excellent crimson flowered, ever-blooming climber. The flowers are exquisitely formed, very full and double, nicely tea scented; strong growing and very free flowering. Price, 10 cents each; two-year-old, 25 cents.

LUCULLUS

The Beautiful New Crimson Bedding Rose PRINCESS SAGAN

The flowers of this variety are the richest crimson of any Rose in our collection, a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 15 cents each; large, two-year-old plants, 40 cents each.

ADMIRAL SCHLEY

The color, a clear crimson, has made it the most popular Rose in the collection. The growth is bushy, vigorous and healthy. With protection it will stand the severe winters. Price, 15 cents each; large, two-year-old, 30 cents.

PINK LA FRANCE

We have always given this the first place—the Queen of Roses. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. Price, 15 cents each; large two-year-old plants, 35 cents each.

WHITE LA FRANCE (Augustine Guinoiseau)

Here we have a beauty indeed, one we recommend to all, whether for outdoor culture or for pots in the house in winter. It is identical with La France, except in color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents each; large size, 35 cents each.

THE BABY RAMBLER

This is the greatest novelty of the year, exactly like the Crimson Rambler, only instead of being a climber it is a dwarf, erect-growing bush Rose, growing only twelve to sixteen inches high and a true ever-bloomer, bearing splendid clusters of beautiful flowers the whole growing season, fine for bedding and house culture; also used as a border for taller-growing Roses or other plants. It blooms in elegant clusters, and the flowers are as large and bright as the Crimson Rambler. Undoubtedly one of the greatest novelties in Roses introduced for many years. It is entirely hardy, needs no protection and has come to stay. All lovers of beautiful Roses will want the New Dwarf Ever-blooming Crimson Rambler.

Price, strong plants, blooming now, 15 cents; fine plants in three-inch pots, 25 cents; two-year-old, five-inch pot plants, 40 cents.

Baby Rambler.

Five Most Popular CREEPERS and TRAILERS

THE NEW WICHURAIANA ROSES

These charming Roses are of the same creeping habit as Rosa Wichuriana, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. They are beautiful for their foliage alone, which is finely cut, thick and leathery, brilliant deep glossy-green. These Roses are of intense hardiness, and succeed in all soils, even on the poorest and driest conceivable.

PINK ROAMER

Its beautiful flowers are single, very large, brilliant rich pink with prominent orange-red stamens, and delightfully sweet scented.

New Crimson Rambler, PHILADELPHIA

The Philadelphia Rambler has proven to be one of the best Hardy Climbing Roses in existence. The flowers are perfectly double, borne in clusters, completely covering the whole bush, color pure, deep rich crimson, which does not fade, but holds bright color to the last. Price, 10 cents each; large two-year-old, 30 cents; large three-year-old plants with canes three to five feet, 50 cents, by express only.

CRIMSON RAMBLER

The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end, showing none of the objectionable purplish tint so common in crimson Roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. Price, 10 cents each; two-year-old plants, 25 cents each; large three-year-old plants, field grown, with canes three to five feet, 50 cents each, by express only.

strong two-year-old plants, three for 60 cents.

The Beautiful New White Climber WHITE RAMBLER (THALIA)

Of German origin, and in habit of growth, foliage, manner of blooming, form of flowers and hardiness, it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented, which the flowers of Crimson Rambler are not. Price, 10 cents each; two-year-old, 25 cents.

The New Hardy Yellow Climbing Rose, YELLOW RAMBLER

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet-scented. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established they more than make up for this by the magnificence of the flowers they produce. Price, 10 cents each; two-year-old plants, 25 cents each.

EMPRESS OF CHINA

A hardy climbing Rose of easy growth and pretty foliage. It is claimed by the introducers to be a wonderful bloomer, which is correct for most of the states, while in others it does not bloom so freely, but has a very rapid growth. A fine Rose, sure to please. Price, 10 cents each; two-year-old, 25 cents.

The Fine New Climber, CLIMBING WHITE PET

This is an unusually vigorous grower and a wonderfully profuse bloomer. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 10 cents each; large two-year-old plants, 25 cents each.

Charming New Hardy Climbing Rose PINK RAMBLER (Euphosyne)

What is said of White Rambler applies equally to this except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. The numerous yellow stamens lend an additional charm to the flower. Price, 10 cents each; two-year-old, 30 cents.

DOROTHY PERKINS

Beautiful shell-pink. A rapid grower, frequently developing shoots from ten to fifteen feet long in one season. Hardy, withstanding the severest winters without injury. CHICAGO

The Variegated Canna SOUV. D'ANTOINE CROZY

A Canna we can recommend as one of the best we have today. Its color is an intense scarlet, bordered with a band of deep golden-yellow. The foliage is broad and deep green. It grows about three to five feet in height, making a fine variety for the border of beds. Price, 20 cents.

The Crimson Canna DUKE OF MARLBOROUGH

This is decidedly the darkest and richest flowered Canna in existence, being a deep crimson-maroon with a velvety appearance. A good grower, four feet high, with very dark green foliage. Price, 15 cents.

The Pink Canna, LURAY

This new variety we consider quite an addition to the Canna family, especially in the pink varieties. The spikes of bloom are large and handsome and held well above the foliage. A beautiful shade of pure pink, a little deeper than Mlle. Berat and a little dwarfer in growth, being about three feet, making it a fine variety for beds. Price, 15 cents.

The Beautiful Spotted Canna, FLORENCE VAUGHAN

Conceded by all who have seen it to be the finest yellow spotted Canna. Flowers very large, of the most perfect form, with broad, overlapping petals, nicely rounded at the ends. Color brilliant yellow, spotted with bright red. A strong, robust grower, and flowers very freely. Price, 15 cents each.

MARTHA WASHINGTON, The New Pink Canna

This is a gem of the first water, of a dwarf habit, about two and a half feet; foliage rich bright green, broad and very beautiful. The color is a pure pink, a little lighter shade than Mlle. Berat. From our experience of the past season, it has proved the freest bloomer of our list. The dwarf habit makes it exceptionally fine for planting in masses or for bordering. Price, 15 cents.

ELDORADO

The flowers are of the largest size, head full, and borne well erect above the foliage, while the habit is more dwarf and compact than Madame Crozy. The color is a rich, pure golden-yellow speckled with a red so light that the general effect, even at a very short distance, is that of a pure golden-yellow. In this we have an ideal yellow Canna, the flowers of full size, and dropping from the spike as soon as faded, leaving the bed always a mass of brilliant color. Price, 15 cents each.

MLLE. BERAT

This is a pink variety of French origin. Entirely distinct from any other sort. It is much the darkest of all the pink Cannas, being dark carmine-pink. Heads of bloom are held very erect and well above foliage. A showy, effective bedder. One of the finest introductions. Price, 15 cents each.

THE NEW "OSTRICH PLUME" FERN

(*Nephrolepis Piersoni*.)

A form of the famous Boston Fern. The fronds grow in the most luxuriant manner, the pinnae subdividing, making miniature fronds, which are superimposed on the main fronds, looking as if two or even three were condensed in one. They are graceful beyond description, feathery, plump, nothing describes them better than Ostrich Plumes, which they very much resemble. The young miniature fronds are constantly developing a rich, lush green on the darker green ground of the main fronds, a charming contrast being thereby produced. Strong young plants, 15 cents each; large handsome plants from 5-inch pots, 50 cents; extra strong plants from 6-inch pots, 75 cents.

JAPANESE FERN BALLS

(The Fern Novelty.)

The Japanese make up dormant Fern roots and moss into balls that are so constructed as to send out leaves from all over their surface. They grow rapidly and are excellent ornaments for dwelling or conservatory. When first received, dip into water for 10 to 15 minutes every two days until growth starts, meanwhile suspend by a wire in any desired location. After foliage starts, sprinkle as required to insure growth. Price, 40 cents each.

KENTIA BELMOREANA

The Kentias are among the best of the Palm species for general cultivation, being almost impregnable against diseases. This variety is one of the best in its class; graceful habit, bright green foliage gracefully disposed; as a decorative plant for the window, dinner table or conservatory it scarcely has an equal. Will not burn under the hottest sun, and stands whipping by summer storms without marring its beauty. It is very effective when planted in earthen vases, and in this way is particularly ornamental for decorating courtyards, verandas, etc. This is the Palm that was used so largely in vases throughout the grounds of the World's Fair. It will thrive under more unfavorable conditions than any other Palm, for which reason it is particularly adapted for hallways or other positions where other Palms would not exist. McGregor's New Mammoth Pansy

The gigantic size of the flower, luxuriant growth, profusion of bloom and exquisite blendings of gay and fantastic color is utterly indescribable. The gigantic flowers are produced in great numbers, and borne well above the foliage on strong stems. To introduce this beautiful new strain of Pansies, we offer nice plants that will come into flower at once for the extremely low price of 25 cents per dozen; \$1.50 per 100.

OUR OLD GLORY COLLECTION

of Large Flowering Pansies

The Red, White and Blue

Adonis—The flowers of this mammoth Pansy are the most striking of its kind. Color a deep blue, making it very desirable for a bed.

Candissima—The largest and most perfect white Pansy we have ever grown. The perfect whiteness of the flower makes a good contrast with the other varieties.

Cassiers Hortensia—The large flowers of this most novel Pansy are of the richest, brightest red.

Price, 30 cents per dozen; \$1.75 per 100.

NEW GIANT HARDY PRIMROSE

The plant originated a few years since in a batch of seedling Polyanthus, and apparently is a Hybrid Primrose, having somewhat the growth of a Polyanthus combined with the yellow color and fragrance of the English Primrose. It is perfectly hardy, grows from ten to twelve inches high, and begins to flower earlier and continues in bloom longer than any other plant of the same family. Price, 25 cents each.

PRIMULA OBCONICA

Price, 15 cents each; or two for 25 cents.

Obconica Grandiflora—This is a plant of new introduction and very much superior to the old Obconica. The flowers are pure white and borne in the same manner as the Chinese Primrose. On account of the large flower, stiff and long stem and the pretty foliage, it has attracted a great deal of attention at the late flower shows.

Obconica Carminea—This variety is the same as the variety above in every particular except color, which is a carmine-rose, which is very effective against the bright green foliage.

Pandanus Utilis.

PANDANUS UTILIS

As an ornament for the window its glossy, dark green serrated foliage renders it unusually attractive, while as a vase plant or single specimen in greenhouse or conservatory, it cannot be surpassed. It is also largely used to decorate the halls in our private residences, and shows grandly on the lawn when grown to a sufficient size. Price, nice plants, 50 cents each.

Baby Primrose.

THE BABY PRIMROSE (Primula Forbesii)

It is a wonderfully free-blooming plant, commencing to flower as soon as borne. It is raised from divisions; also from the seed, though the latter method is inadvisable owing to the uncertain and variable character of the seedlings. It forms a dense rosette of somewhat fleshy leaves, from which spring the flowering stems, twelve, fifteen and even twenty inches tall, supporting three tiers or whorls of dainty flowers of a delicate rosy-lilac, with eye of pale gold. The flowers are not more than half an inch in diameter, but they are produced in such great abundance that plants present a dense mass of bloom, which continues without interruption and with increasing vigor from September until June. Price, 10 cents each; three for 25 cents.

Well grown plants, three to four feet in diameter, look like a shower of delicate coral blossoms. Price, 10 cents each.

RHODODENDRONS

One of the most valuable of our hardy decorative shrubs, and is universally acknowledged to be the most showy, magnificent, hardy evergreen shrub that grows. The broad, thick evergreen foliage, with its glossy richness, would alone entitle it to a place foremost in the rank of evergreen shrubs, but when in June the mass of luxuriant foliage is almost hidden by the magnificent array of beautiful flowers in clusters, it is simply grand. A protection of leaves and brush during the first winter will be beneficial. It will thrive in any good soil without any special preparation, and in the full blaze of the sun, but it is more luxuriant in good, well-prepared soil of leaf mold and muck and peat mixed, and in partial shade. Should go by express. Price, \$1.00 each by express only.

Entirely hardy, no trouble to grow, and does well everywhere.

SPIREA BILLARDII

(Meadow Sweet)

- 5 The Spireas are all elegant Shrubs of the easiest culture, this variety being particularly so. Their flowering season extends over almost the whole spring and summer. This fine variety is a strong, robust grower, producing quantities of beautiful pink flowers until late in the fall.

Summer Flowering Bulbs

MONTBRETIAS

The Montbretias are one of the brightest and best of summer-flowering bulbs, and it has been a matter of wonder to us why they are not more generally used. We feel sure that if once tried they would become firm favorites. The bulbs should be planted from April to June in clumps or groups of three to a dozen or more. They are perfectly hardy, and once planted can be left to care for themselves. In growth they resemble the Gladioli, and produce spikes of the most brilliant flowers in the various shades of orange, yellow, red, etc. Price, 5 cents each; 40 cents per dozen.

GLADIOLUS

Mixed—Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded and their places filled with "Lemoins," "Childsii," "Groffs," and our own best mixture. We trust that many of our friends will avail themselves of these very low prices to plant largely; the spikes of bloom, richness and brilliancy of color are out of all proportion to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents; 30 cents per dozen or \$2.00 per hundred postpaid; by express \$1.75 per hundred.

OUR IMPROVED
Lily of the
Valley.

LILY OF THE VALLEY

Too well known to need any special description. Every one knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter just as easily. If you wish them for Easter, start them in February. We can supply the bulbs all winter. Price, 5 cents each; 50 cents per dozen.

CINNAMON VINE

Perfectly hardy, the stem dying down every autumn, but growing again so rapidly in the spring as to completely cover any trellis or arbor very early in the season. It is produced from tubers that will make from ten to twelve feet of vine, having beautiful, heart-shaped leaves, bright green, peculiar foliage, and clusters of delicate white flowers, sending forth a delicate cinnamon odor. Price, 10 cents each; three for 25 cents.

Gladiolus.

MADERIA VINE

A rapid growing vine, covering a large space in a short time. Fleshy, heart-shaped leaves of a light green, and numerous racemes of feathery flowers of delicious fragrance. A beautiful and popular vine. Price, 5 cents each; 50 cents per dozen.

THE
SCARLET
MEXICAN
LILY

Grown in Water.
**The Gorgeous Scarlet Mexican Lily,
SPREKELIA FORMOSISSIMA**

Any description would be inadequate to give a correct idea of the superb brilliancy of the flowers of this Lily. They are a dark velvety-scarlet, shading to maroon and having a satiny-white stripe in the center of each petal. In form more graceful than any Lily we know of. They must be seen to get a proper idea of their gorgeous magnificence. Plant the bulbs either in sand and pebbles covered with water, like a Sacred Lily, or in pots filled with good rich soil. If planted in the same manner as the Chinese Sacred Lily, the blooms will appear much sooner, but will not last so long as when planted in earth. Try two or three of these bulbs planted together, and a gorgeous display is assured. Price, 15 cents each; 2 for 25 cents; 3 for 35 cents.

CALADIUM ESCULENTUM (Elephant's Ear)

Very effective and suitable for either a single plant on the lawn, masses in beds, or margin of water. Its very distinct leaves often attain the length of three feet, by twenty inches wide, and have a rich, tropical effect. The growth is very rapid, and the ground must be made rich. Watering in dry seasons will help develop large leaves. Bulbs can be stored in dry sand in winter and kept from year to year. Price, 15 and 25 cents.

Caladium Esculentum.

Fancy Leaved Caladiums.

FANCY LEAVED CALADIUMS

A fine decorative plant for the conservatory or open ground. The leaves are not quite so large as Elephant's Ear Caladium, but beautifully variegated, striped and mottled with crimson, sea-green, yellow and violet-pink. Plants are grown from bulbs which should be started into growth in the spring, dried off in the fall and kept in the warm until spring again. We offer bulbs from a select list of the best named varieties. Price, 20 cents each; three for 50 cents.

LILY OF THE AMAZON (Eucharis)

This Lily gets its name from having such fragrant flowers. They should be grown in as warm a temperature as possible, where they will get plenty of moisture. The flowers are produced in a truss of from four to eight, depending on the size of bulb, on a stem that lifts them just above the leaves. They are a pure waxy white and of great substance. If asked for the best plants producing white flowers, for vases or any other purpose, we should unhesitatingly recommend the Eucharis. Price, large fine bulb, 25 cents each; 2 for 40 cents.

BLACK CALLA (Dragon Arum)

This plant has the honor of producing the largest flower of any plant that is hardy in this country. They are simply enormous. The leaf, stems and flower stock are all spotted; upon the top of the latter opens a flower of gigantic size and curious color. On the outside it is of a light green color, while the inside is of a deep red-purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is of a glossy, purple-black color. Price, good bulbs, 20 cents each; extra large bulbs, 40 cents each, three for \$1.00.

CALADIUM ESCULENTUM (Elephant's Ear)

Very effective and suitable for either a single plant on the lawn, masses in beds or margin of water. Price, 15 and 25 cents.

AMARYLLIS JOHNSONII

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late winter or early spring, bearing large flowers of intense crimson with a delicate white feather in each petal. It is most superb. Price, 30 cents each.

Perfectly hardy, the stem dying down every autumn, but growing again so rapidly in the spring as to completely cover any trellis or arbor very early in the season. TIGRIDIAS

(Tiger, or Shell Flower)

These gorgeous summer-flowering bulbs look well associated with Gladioli, Lilies and kindred stock; grow about two and a half feet high, and flower freely throughout the summer. They require the same treatment as Gladioli, and should be lifted in autumn and dried off in the same way. (See cut.)

Conchiflora—Golden-yellow, spotted crimson.

McGregors Select Hardy Flowers

Hardy perennials are those plants which die down in winter, but start again in the spring from the root, lasting many years and flowering every year. Never before have they been so popular, and from present indications of a desire for hardy plants, the demand for them will continue to increase, which will make them as popular in the United States as they have been in the horticultural centers of Europe for many years. Some are very useful for screens, some for hedges, rockeries, steep banks and terraces, others for bedding, edging and bordering and cemetery planting; then again others are fine for cutting to be used as table decorations. Cultivation is of the simplest, beginning with any good garden soil for a foundation, which may be enriched with any good fertilizer, such as well decomposed manure or bone meal, deeply dug, well pulverized, in which the plants should be set as early in the season as possible, so as to enable them to become well rooted and established before hot, dry weather sets in. The flowers are immense in size, often measuring twenty inches in circumference. The color is of the purest white, with a large spot of deep velvety-crimson in the center of each flower. It will succeed anywhere and is perfectly hardy. Notice—These plants, when you receive them, may appear dead; they are not, only dormant and will soon start new shoots from the root, which is strong and healthy. Price of good, strong roots, have bloomed this year, 15 cents each; three for 40 cents; large three-year-old plants, 25 cents, by express only.

Lemon Lily of Siberia.

Double Hollyhocks.

HOLLYHOCKS

Few hardy plants combine as many good qualities or lend themselves as readily to varied uses as the Hollyhock. For planting in rows or groups on the lawn or interspersed among shrubbery they are invaluable. The flowers, which are as elegant in shape as a Camellia, form perfect rosettes of the most lovely shades of crimson, yellow, pink, orange, white, etc. They require a deep, rich soil, and will repay in quantity and beauty of bloom any extra care. We offer a fine assortment in separate colors. Price, large field plants, three distinct varieties, 20 cents each; three for 50 cents.

FUNKIA (Plantain Lily)

The Plantain Lilies have always been very popular, due to the easy management of the plant. Their broad, massive foliage makes them attractive subjects for the border even when not in flower and they deserve extensive cultivation.

Subcordata Grandiflora—Pure white, lily-shaped, fragrant flowers; borne in large clusters. Price, 15 cents; \$1.50 per dozen.

Medio Variegata—Green and white foliage with purple flowers. Price, 15 cents. The two varieties for 25 cents.

Album—A white-flowered form of the above. Price, 15 cents each.

HEMEROCALLIS FLAVA (Lemon Lily of Siberia)

One of the most beautiful and desirable Lilies in existence. You plant it once and you have it for all time. Few plants present a more striking appearance on the lawn or border than a large clump of this clear lemon-colored Lily, which is produced in the greatest profusion, lasting in flower for a long time. It is perfectly hardy, requiring not the slightest protection and no care after once being started. Price, 20 cents each.

Phlox.

PHLOX

Their vigorous growth and freedom of bloom make them very useful plants, while they are unexcelled in beauty. The improvement made in this beautiful class of plants is, perhaps, more marked than in any other section of the hardy herbaceous family. Instead of the thin flowers, which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, carmine, red and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere.

HARDY SCOTCH or SWEET MAY PINKS

These are dwarfier than the Carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground, flowers perfectly double, clove-scented, and the plants will stand out of doors year after year, being entirely hardy.

RUBBECKIA LACINIATA Fl. Pl., (Golden Glow)

A hardy perennial plant growing eight feet high, branching freely, and bearing by the hundreds on long, graceful stems, exquisite double blossoms of the brightest golden color and as large as Cactus Dahlias. It grows vigorously and throws up strong, branching flower stems six feet high, laden with sheaves of golden blossoms as large as fair Chrysanthemums, and all having an elegant, graceful appearance without any of the stiffness in habit or blossoms peculiar to sunflowers. As cut flowers the blossoms last well. In fine, we unhesitatingly regard it as the most desirable introduction among hardy perennials of late years. It is the most effective flowering plant for August and September in cultivation. Price, strong plants which will bloom freely this season, 15 cents; two for 25 cents.

We OFFER FOUR OF THE VERY BEST VARIETIES.

FLOWER SEEDS

McGREGOR'S SELECTED FLOWER SEEDS

We have used the greatest care in obtaining our flower seed, and those we offer you are absolutely fresh, being grown under our personal supervision or imported from the best foreign seed growers. Failure in getting satisfactory results from seed planting may be attributed to the manner in which the seed is sown, rather than the lack of germinating power in seed, and seedsmen are unjustly censured when the fault lies in the cultivator and not in the seed.

Sowing of Seeds—Spade the soil in the seed bed to a good depth, work it over and over with the spade in order to mash the small clods. Sow the seed in drills or broadcast, according to the kinds, covering carefully and lightly, there being more danger in covering too much than not enough. Never allow the seed to remain in dry soil.

For seeds that require an early start, to secure blooms before frost, sow in shallow wooden boxes—in good garden soil. Cover seeds very lightly, keeping the box in a sunny window, covering the box with a pane of glass until the seeds begin to sprout, but never allow the soil to become too dry.

Transplanting of Seedlings—Do not allow the little plants started in the boxes to grow too tall before transplanting. Care should be used in watering the seedlings well after planting and to protect from the sun for a few days with light paper.

Flowers from seed are usually known as Annuals, Biennials and Perennials.

Annuals bloom and ripen seed the first year and then perish.

Biennials do not generally flower the first season and are in perfection only one year.

Perennials continue to flower several years in succession. Many of them bloom the first year if sown early.
